**Healthcare Administrator**  
**Kalkaal Home Care**

- Manage staff members and clients to make sure all operations are done in compliance with healthcare regulations.
- Responsible for recruiting additional clients.

## Projects

### Wandr

This full-stack React app utilizes Firebase for Google auth sign-in and allows the user to create a profile, pin their desired destination as their location, and view the profiles of other users on a map. It is designed to connect digital nomads with one another as potential friends or travel buddies.

### RecSaver

This full-stack application allows users to search for a movie or tv show and view a summary, poster, rating, and release year pertaining to it. Whenever a user saves a movie or tv show to a watch-list, they can interact with it by adding notes, updating those notes, and deleting the movie or show from the list.

### Travel Japan

This is a niche, front-end application catered to users who wish to safely travel to Japan amidst the COVID-19 pandemic. It allows the user to search tourist destinations by city and view the main attraction, nearby restaurants, and weather for each city. They are also able to view an alert that contains a recommendation stating whether or not the attraction is deemed safe.

## Certificates

09/2020  
**Full Stack Web Development Certificate**  
**University of Minnesota**  
240 contact hours of an intensive coding bootcamp focused on the fundamentals of front-end and back-end development.

01/2019  
**Emergency Medical Technician (EMT)**

01/2019  
**Basic Life Support (CPR & AED)**
